SAINT JOHN OF DAMASCUS

From almost 1300 years ago, John's message for the church's spirituality and mission is surprisingly contemporary. Pope Benedict said that in our modern culture of images, sacred images often speak more eloquently than words. This "incarnational theology," the concept that visible, tangible elements can give believers access to divine realities beyond, found an eloquent champion in John of Damascus. He challenged the Iconoclasts (image-breakers), whose misinterpretation of the biblical prohibition of idolatrous images (Exodus 20:4-5) led them to campaign for the destruction of all sacred art. Before this controversy, however, John bore witness to Christ in a way that provides a timely example for Christians in today's pluralistic society. Succeeding his grandfather and father, John served as chief financial officer to the Muslim caliph, professing his Christian faith without compromise, while winning the esteem of his Islamic sovereign by his competence and integrity. No wonder John could eloquently defend icons as "windows into heaven"—he had already learned to see Christ in the living icons of people different from himself yet fashioned in the same divine image!
